(54) INFORMATION PROCESSOR, INFORMATION PROCESSING METHOD, RECORDING MEDIUM AND PROGRAM

(57) Abstract:

PROBLEM TO BE SOLVED: To inform a user of the use condition of contents.

SOLUTION: A right information storage part 65 records the data of right information corresponding to contents (that is, whether or not the right information is present, whether or not the right information is movable, or the residual number of times of check-out). A GUI part 61 allows a display to display an icon corresponding to the data of the right information corresponding to the name of a piece of music.
